Technical details

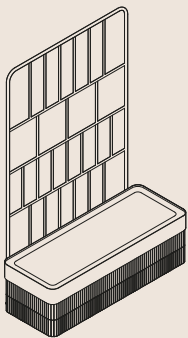

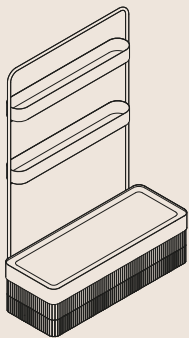

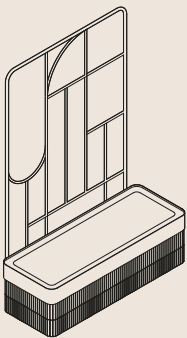

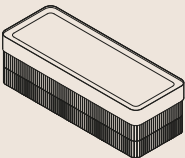

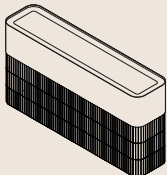

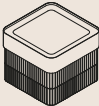

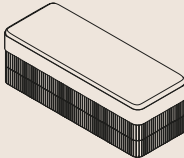

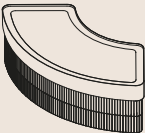

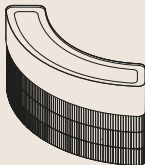

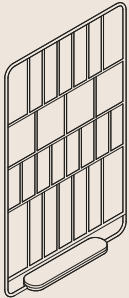

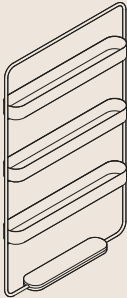

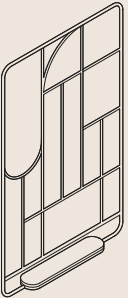

Campo Materia

Gli elementi della collezione si articolano in quattro mondi cromatici, ispirati ai colori della natura — rosso, viola, grigio e verde. Materiali e finiture sono definiti per garantire armonia e coerenza in ogni composizione. Le diverse configurazioni costituiscono uno strumento progettuale, pensato per definire il proprio spazio all’aperto.

EN Technical Details.
The collection’s elements are divided into four colour worlds, inspired by the colours of nature — red, purple, grey, and green. Materials and finishes are carefully selected to ensure harmony and coherence in each composition. The different configurations are an instrument of the design, allowing you to define your own outdoor space.

IT La fioriera è composta da una vasca con angolari, un rivestimento in gessetti e una cornice superiore in metallo.
Sistema di tubatura — La tubazione principale scorre a pavimento e sotto le fioriere. Dalla tubazione principale si dirama quella secondaria che, attraverso l'angolo della vasca, risale in superficie e consente l'irrigazione goccia a goccia del terreno.
Accessori — Le fioriere offrono l'opzione di ruote, piedini regolabili per l'altezza e fondo regolabile in altezza.

EN The planter consists of a tub with corners, a plaster lining, and a metal upper frame.
Pipe system — The main pipe runs along the base and under the planter. A secondary pipe branches off from the main pipe and rises through the corner of the tub to the surface, thus permitting drip irrigation.
Accessories — The planter offers the option of wheels, height-adjustable feet, and a height-adjustable base.
